

Meeting your needs in major and minor projects

TJ Hunt is a leading privately owned regional contractor, specialising in civil engineering, public works and highway maintenance services.

We have the experience, equipment and expertise to meet your requirements for all types of projects, from large scale contracts to minor works.

Good planning/organisation and flexibility are central to every contract. Our experienced management team ensures that the clients' expectations are met with professionalism and dedication, with attention to detail always being a priority.

INFRASTRUCTURE AND CAPITAL WORKS

For larger scale projects, where heavy duty plant is required along with civil engineering expertise and performance, TJ Hunt has an excellent and long established track record.

Our extensive range of modern earthmoving and construction plant is suitable for the most demanding tasks. Regular clients such as Surrey County Council, the Ministry of Defence and many Government Departments, can be confident in the knowledge we aim to complete their infrastructure projects on time and to budget.

HIGHWAY MAINTENANCE, ROAD IMPROVEMENTS AND CAR PARK SCHEMES

We have considerable expertise in the construction of public highways, car parks, access roads and private estate roads -managing traffic flow and ensuring pedestrian safety at all times. Close liaison with our clients means that we are always fully aware of their needs and are ready to deal with any contingencies within a contract. Contracts include providing 4 year Highway Maintenance Contract for Surrey County Council and the Civils Term Maintenance for Royal Parks in London.

SURFACING, PAVING, ACCOMMODATION AND MINOR WORKS

Our teams of skilled tradesmen are on hand for projects of all sizes and specifications, and have gained a widespread reputation for achieving quality results, including works to a heritage standard. Major surfacing and associated works for the Royal Horticultural Society in Wisley, together with similar work for the National Trust are examples of our capabilities.

Multi-service provider through a skilled and motivated workforce

Our teams of highly skilled employees undergo both external and internal training relevant to their operational disciplines, holding the necessary recognised certification where appropriate.

This experience includes work in:

- Site clearance and demolition
- Earthworks and excavation
- Groundworks and construction
- Highway maintenance and surfacing
- Specialist paving and slabbing
- Reinforced concrete works
- Underground service and cable ducting
- Hard landscaping and fencing
- Drainage and sewerage systems
- Forestry and land clearance works
- Provision of fast emergency response crews
- Lakes, ponds and waterways dredged, desilted and constructed

PLANT HIRE AND CONTRACT SERVICES

We offer a wide range of services tailored to meet clients short and long term needs, whose operating requirements include tracked and rubber tyred excavators, tipper, grab and hiab lorries.

As well as servicing the needs of our own construction and maintenance projects, our plant, tipper and grab fleet is also utilised on outside hires and contract works.

All our plant, vehicles and equipment are maintained and serviced either in our own workshops or by our on-site mobile field service engineers.

EXPERIENCED IN THE PUBLIC AND PRIVATE SECTORS

TJ Hunt (Contracting) Ltd works for a wide range of companies and organisations in both the public and private sectors, providing high quality services which consistently meet and exceed demands.

Our range of skills and capabilities are illustrated by the diversity of one-off projects or long term maintenance contracts carried out over many years. For example:

- Construction of new business and industrial park in Farnham
- New Pavilion Glasshouse building for the Royal Horticultural Society, Wisley
- Provision of new car parks and tracks for SCC Countryside Dept
- Surrey Schools, new playgrounds, car parks and footpaths
- Works to maintain Police Station infrastructure for Surrey Police
- Civils and construction inside MOD Establishment and training areas
- Traffic calming and town centre schemes for various councils
- Numerous external works within the London Royal Parks

QUALITY

It is our policy to sustain and improve the provision of a good quality service and to consider the health and safety of all of our employees, subcontractors and others likely to be affected by our operations and to continually improve our environmental performance.

The purpose of our integrated management system is to enable us to formulate a policy and objectives taking into account legislative requirements and information about our significant environmental, quality assurance and health and safety aspects. Our integrated management system applies to those aspects that our company can control and over which it can be expected to have an influence.

ENVIRONMENTAL POLICY

We are committed to maintaining high standards throughout our operations, with particular regard to improving our significant environmental impacts, including the reduction and control of waste, and the prevention of pollution.

Environmental awareness is a key factor in our success. We are conscious of our responsibilities within the community and aim to re-use and recycle most waste materials wherever possible, together with enhancing and improving the environment for the benefit of all.

We are specifically committed to:

Establishing and maintaining an Environmental Management System compliant with BS EN ISO 14001:1996.

Complying with existing and future relevant environmental legislation, corporate and other requirements.

Providing a framework for setting and reviewing our environmental objectives, targets, management programmes and policy, to ensure continuous improvement in our environmental performance.

Wherever possible influencing project design by offering solutions to reduce environmental impact.

Considering environmental factors during material selection and procurement for a project wherever we have influence.

Carrying out an assessment at each site and developing specific environmental management plans to mitigate impacts such as noise, dust, odour, waste and emergency situations, and taking into consideration local community concerns and the control of hazardous substances.

Developing and implementing a system to monitor performance of company vehicles, and the energy consumption of our buildings.

Working with our suppliers and sub-contractors to improve both parties' environmental performance.

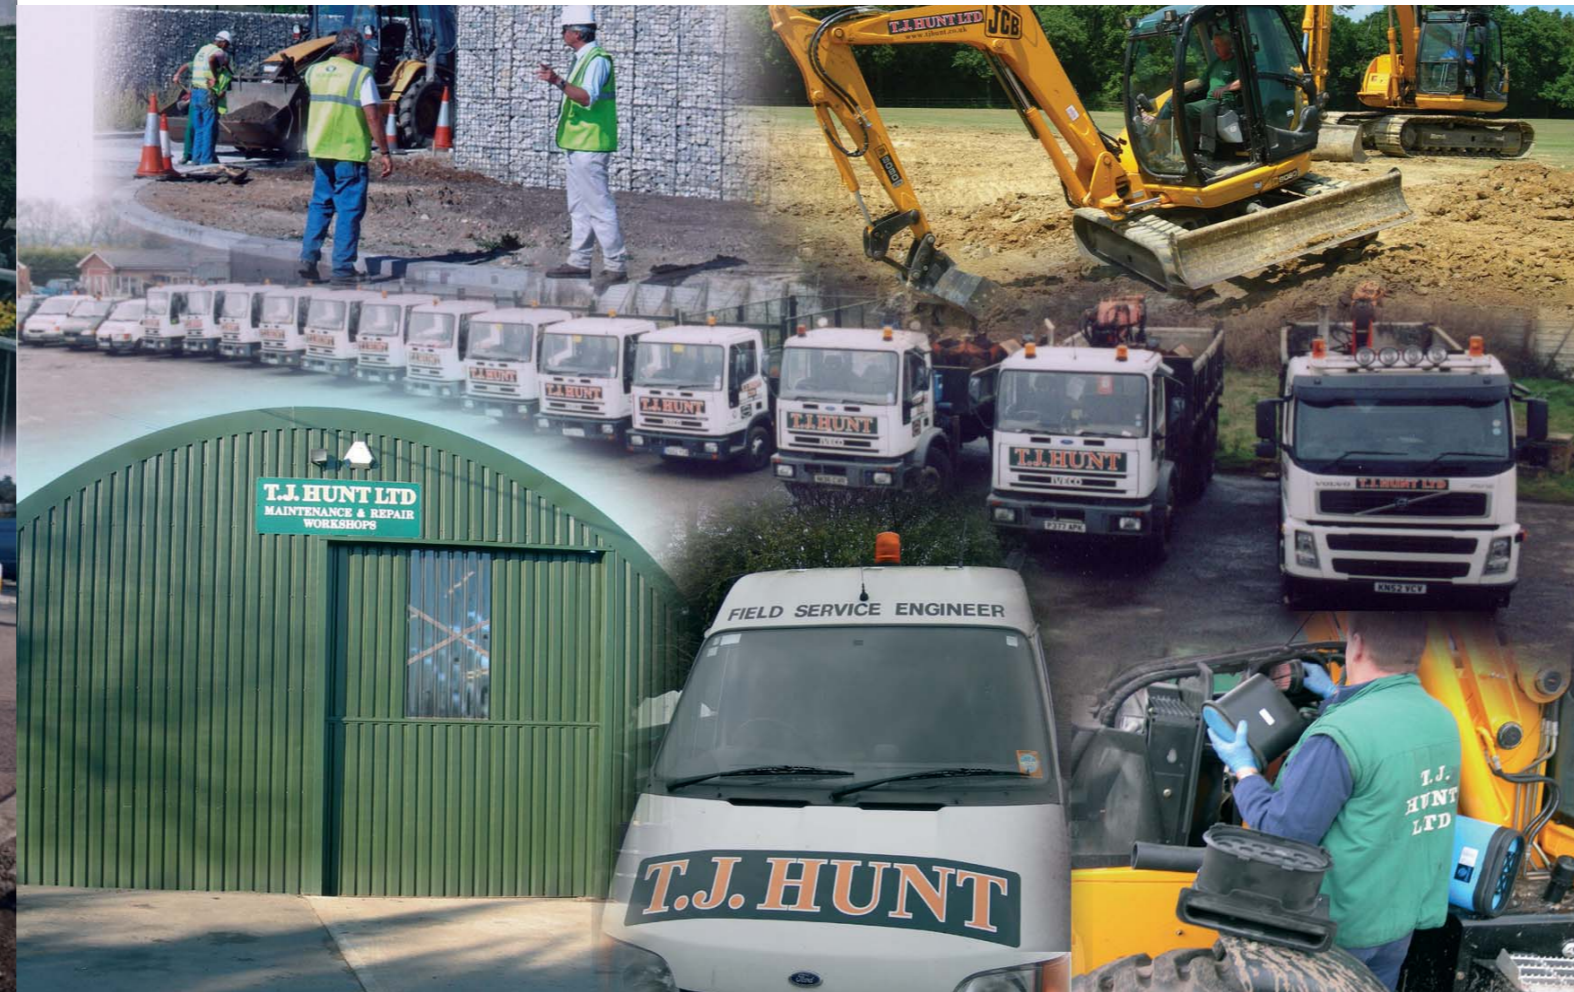

This illustrates our attitude to environmental responsibilities in our business activities, and our commitment to ensuring our operations fully comply with all the guideline principles of sustainability and environmental protection.

TJ Hunt - The Company

TJ Hunt, based near Guildford in Surrey, was established in the mid 1970's with its wholly owned subsidiary company, A Hester Ltd, having been contractors since 1924.

We have built an enviable reputation for quality and reliability and provide a wide range of contracting services to a large number of clients throughout the South East of England.

Our long experience and understanding in providing an efficient service to the industry is linked to the use of new technology and rapid communications for good management and project planning.

We have invested continuously in professional training for our staff to ensure that they can meet both our clients' and the statutory requirements for safety and quality.

Our investment in new plant and vehicles has given us the capability to take on the most demanding projects. We aim to offer value for money together with safe, quality services to all our clients.

Desilting a Department of Transport balancing pond.

The same view after 18 months regeneration.

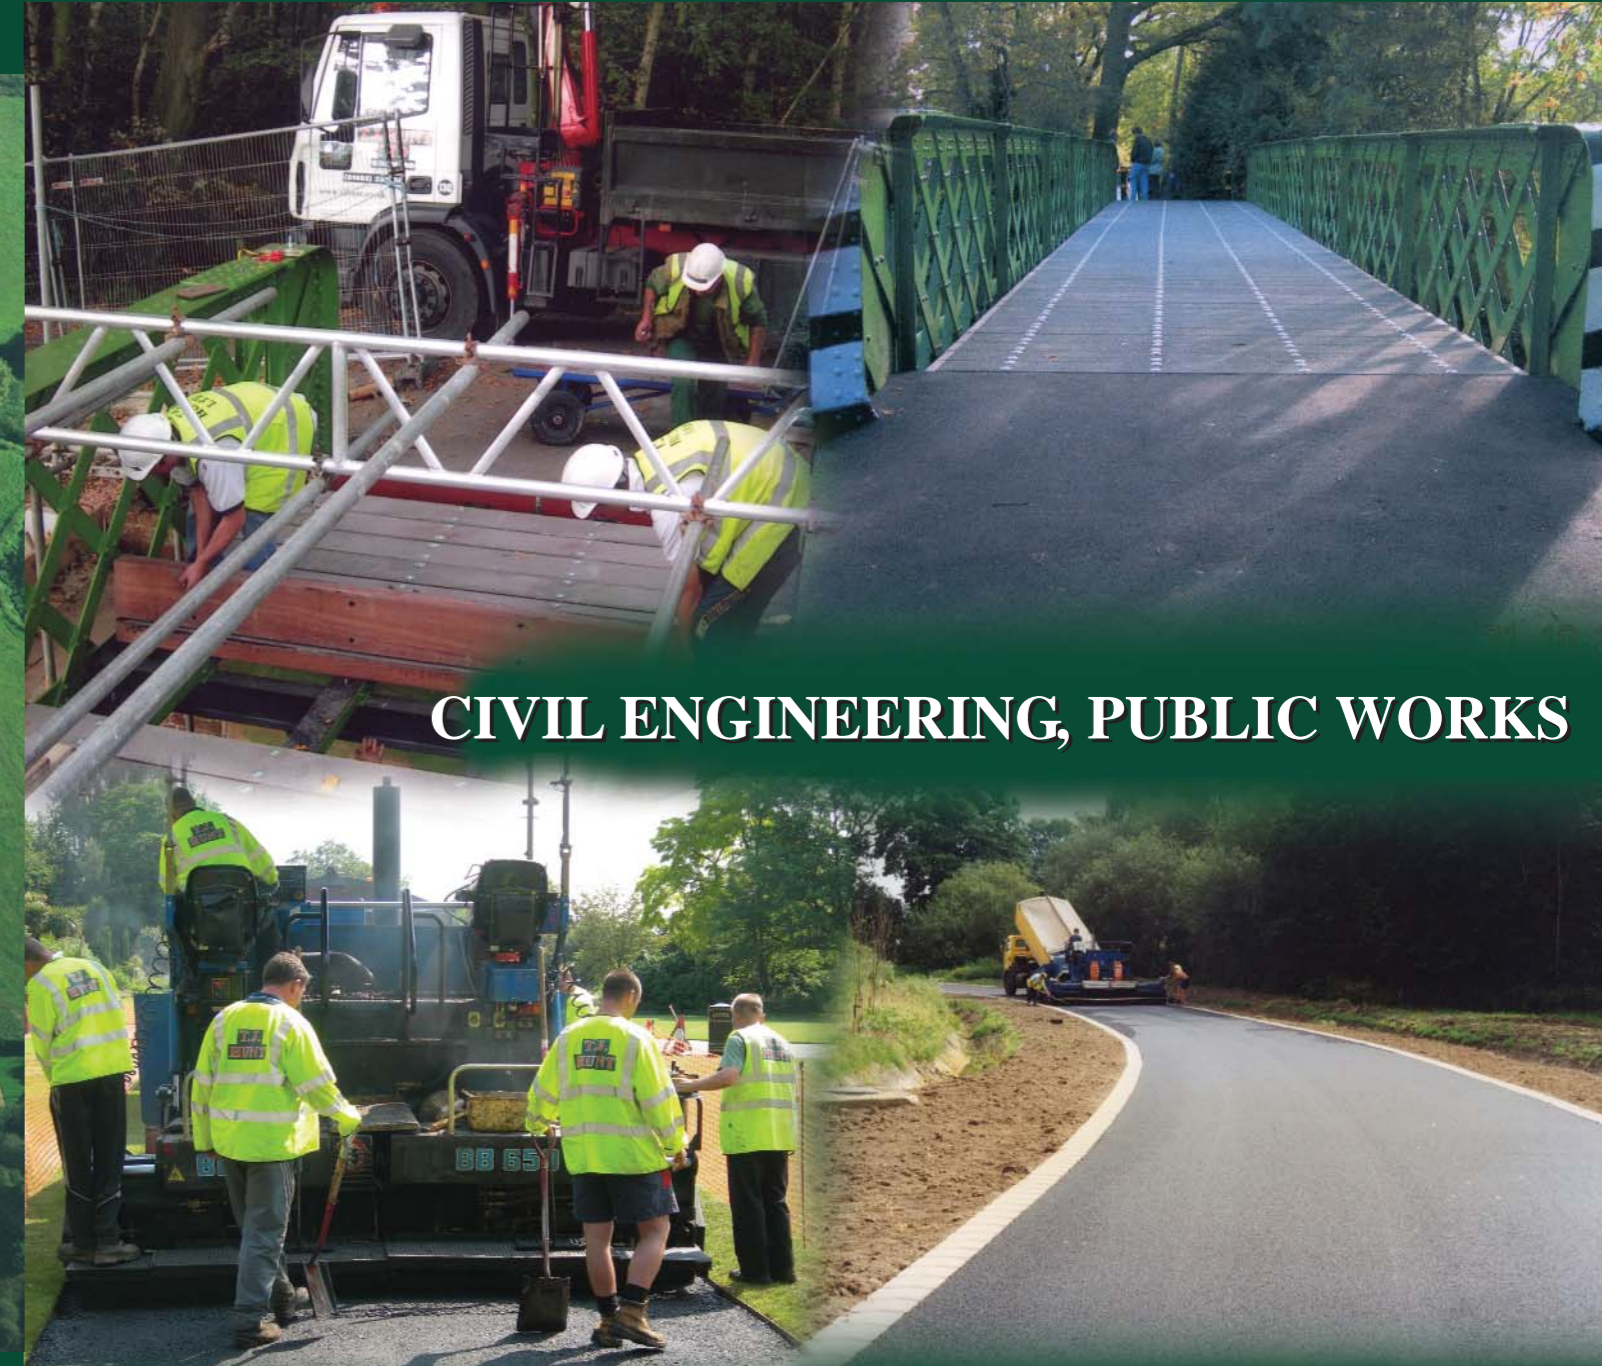

Traffic island installation in central London

Major project works include construction of a large 20 acre business park near Farnham, following the company's advance highway works to rebuild sections of the adjoining A31 dual carriageway and access road into the site. Aerial shot shows completed phases now occupied with areas of infrastructure we still have under construction.
